DATE: Tuesday, August 22, 2006

DIVISION: Royal Security Police Service

SUBJECT: Tender for the acquisition of fourteen (14) general purpose trailers

The **ROYAL SECURITY POLICE SERVICE** of the Royal Kingdom of Gotzborg invites pricing proposals from interested parties for the construction and delivery of fourteen (14) general purpose trailers. These trailers are deemed necessary to ensure that the Royal Security Police Service has the capability to meet emergency, and day-to-day, transport requirements.

Each general purpose trailer should be capable of supporting payload weights of up to 500 kg (1100 lbs) and be compatible with the Anthelia Automotive Carrier I (RSPS Variant) Platform currently in service with the Royal Security Police Service.

Each general purpose trailer should be constructed from steel. The utilisation of wood product in the structural members of the general purpose trailer is strictly forbidden.

Each general purpose trailer should have appropriate rigging to ensure that payload can be protected from exposure to weather during transport. This rigging should be easily removed, providing for the payload to be exposed, as required.

Each general purpose trailer should not be greater than 3.5 metres in length and 1.5 metres in width.

Please submit pricing proposals to the General of Police, HG Liam, via email at royalpolice [AT] gotzborg.com. The deadline for submission is Thursday, 31 August 2006 at 17h00 EST. Any questions should be directed to the indicated email address. Please include company name in all correspondence.
