General Sinclair,

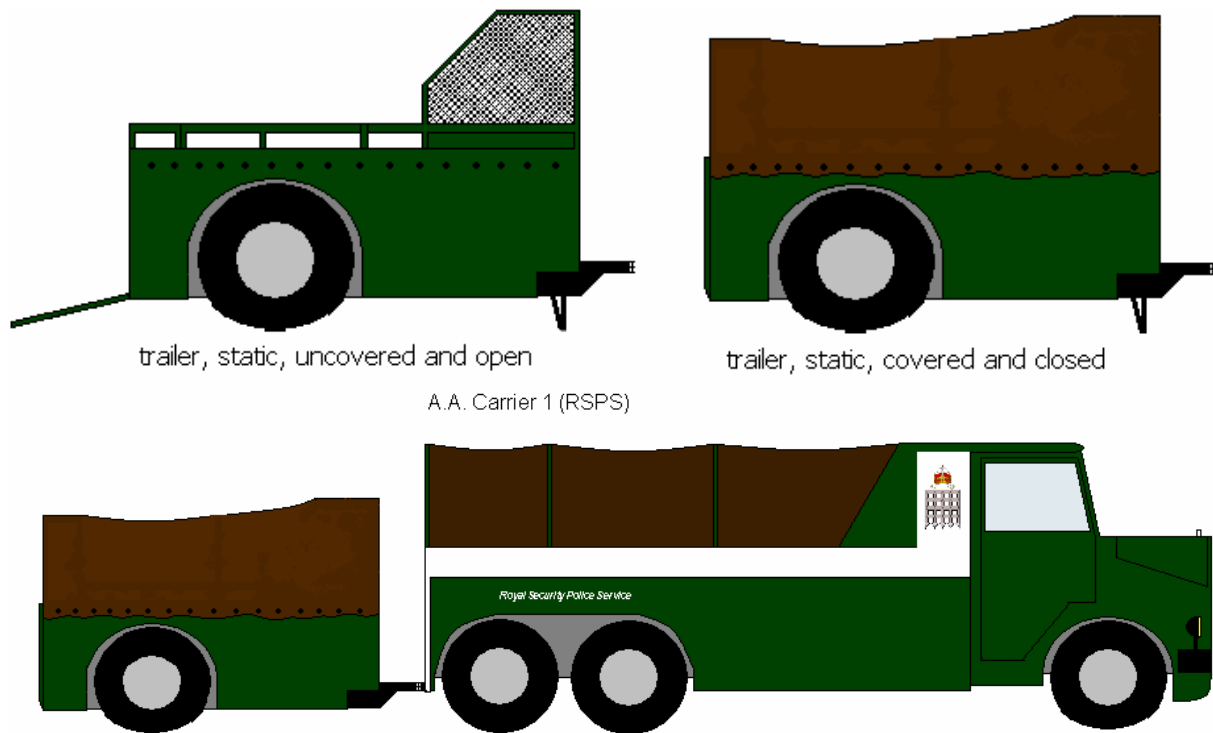

In reply to a tender issued on 22 august by your Service - the Royal Security Police Service of the Kingdom of Gotzborg - Anthelia Automotive hereby desires to submit a pricing proposal for the construction and delivery of fourteen (14) general purpose trailers.

The model our company proposes is the ATLAS-trailer, customized to fit the needs of a modern police force. This trailer is entirely constructed in steel and its measurements are as followed:

- length: 3,5m
- width: 1,5m
- height: 2,5m (at its highest point)

The volume of the trailer is approximately 12m<sup>3</sup>(to give a comparison, the AA CARRIER 1 can transport up to 22m<sup>3</sup>) and can support payload weights of up to 500kg. Evidently, as a product of Anthelia Automotive, the ATLAS-trailer is compatible with the AA CARRIER 1.

Below you find some representations of the ATLAS-trailer. You will notice that the trailer is fenced at one side. This fence can be removed, an option which will decrease the price/unit. Yet, we would recommend the installation of the fence, as an ATLAS trailer could be used in a blockade (fence side towards “hostile force”) behind which your police forces can then shield. The trailer can also carry its payload while fully ceiled. For that purpose the end- and middle-part of the support bar can and must be stretched out to support the cover-up sail. If you choose the non-fenced ATLAS version, the sail can may be attached without having to stretch parts of the support bar. Of course, the transport volume will then be much lower.

The price/unit of the ATLAS-trailer is 700\* (approximately 385 GTh). Total price for fourteen trailers would amount to 9800\*. However, given that this would be the third large order by the RSPS, Anthelia Automotive would like to offer your Service a discount of 1000\*, which is a little bit more than 10% of the original total price. **Our proposed price therefore is 8800\* (4840 GTh)**. The production of 14 ATLAS-trailer will require up to 3 weeks.

If you have any further questions or comments, please do not hesitate to contact us. Anthelia Automotive remains at your service.

Yours sincerely,

Koen Nevens  
Manager of Anthelia Automotive
